

LumbroPET

This remedy is to ensure that any and all viruses are killed in the body. Certain cases of biliary are extremely virulent and the animal may suffer needlessly as the body attempts to eliminate the virus. This supplement will assist greatly with it.

NEM-PET

An effective remedy to assist with Spondylosis in animals, Arthritis in animals, and general weakening of bones and joints in animals.

Probiotic

Natural pro-biotic to restore natural micro-flora in intestines. Occasionally an animal's digestive system may be disrupted by what it ate. Any infection that affects the liver will affect the digestive system. The probiotic ensures that the balance is restored. This has been known to increase milk production in dairy cows. It assists in keeping ticks, fleas and flies under control.

RenaPET

May assist with kidney function in older pets.

Sily Marum

Crushed seeds of Milk Thistle to assist with liver assistance after biliary and liver complaints.

Skin Ointment

May assist with severe mange or allergic reactions

SleepyPET

May assist with relaxation and sleep.
Good for animals that are stressed out by thunderstorms and loud noises.

StressedPET

May assist with animals stressed out by loud noises and separation anxiety.

Welcome to Rondeklip Organics Animal Products

At Rondeklip Organics, we extend our commitment to natural remedies to our beloved pets.

Our botanical pet medicines are crafted using the same time-tested ethanolic extraction method used for our human products.

We believe that true wellness for pets means embracing both the "good" and the "bad" that nature provides.

The Rondeklip Difference

Our dedication to quality means that all our botanical pet medicines adhere to the same strict preparation methods.

We've meticulously researched and tested each product to ensure safety and effectiveness, regardless of whether your pet is a carnivore, herbivore, or omnivore.

Our products are suitable for a wide range of animals, including cats, dogs, goats, sheep, cows, and pigs.

Powders for Animals

Our powdered supplements are formulated with your pet's well-being in mind.

Each container contains a month's supply of powder and includes clear directions and dosages.

Mixing Made Easy

For the convenience of pet owners, we recommend mixing the powder with peanut butter, tailored to your pet's dietary needs:

- Carnivores (e.g. cats, dogs): Mix with peanut butter.
- Herbivores (e.g. cows, sheep, horses, goats): Combine with their feed.
- Omnivores (e.g. pigs): Add to their diet.

AnnuPET

An effective herbal remedy that may assist with any bacterial infections, parasites and foreign organisms.

Including parvo-virus and biliary fever.

ArthriReliefPET

A pain relief remedy that may assist with joint inflammation associated with Arthritis. Pets need a lot more fat and oil in their diets than humans.

We recommend x1 teaspoon to x2 tablespoons of coconut oil with their food, daily.

Artu +PET

Effective herbal remedy for assistance with cancer and extreme infections.

The dosage is dependent on the size of the animal that it is given for.

Liver assistance is necessary for the animal to process the medication appropriately.

Calendula Ointment

Assists with healing of wounds. Rub onto affected part as often as possible. Animal may ingest the supplement. There is no side-effect to them.

CeraPET

This supplement assists an animal to grow and reach optimal growth as soon as possible.

Has a calming effect on animals that are over-excitabile.

And assists with focus when it comes to training of the animal.

ColdFluPET

An herbal remedy to assist brachycephalic dogs breathe and snore less. They may also be more prone to getting sinus infections and colds. This remedy assists to make breathing easier (and less snorting and snoring for the human owners!).

DioiPET

May assist with mineral supplementation, in all animals.

LiverPET

An herbal remedy to assist with restoration of liver function. After biliary/blood poisoning, the liver requires additional support to correct itself and get back to working optimally.
